

Dear Emma,

November 2012

I would like to greet you on behalf of the teachers that have been supporting you for some years already.

We are following website news of H.H.F.L., so we could see how wonderful your holidays were. We hope that you enjoyed the communication with some Europeans In the summer. You probably played your favourite games - netball, basketball or football. Do you play them in mixed teams or only with girls?

We like your idea of becoming a teacher or a dentist in the future. So you must still learn a lot. We will cross the fingers for you. We also read your teacher's remark on your computer skills, which are improving. So we hope to read some more praise next time too.

We are thinking of you and already now in November wish you a Merry Christmas and a Happy New Year 2013.

Best regards,

Czech teachers from MOA JICIN
