

Dear Grison

November 2012

I am writing you in the name of the teachers who have been supporting you for several years.

We were very happy to read that you have finished your studies and started to live on your own. You managed to learn something useful for your life and we hope that you will be able to take care of yourself.

Some of the teachers saw the website of Lenana School and were surprised how many things were happening there in the summer holidays. You cannot feel alone in such a big family. We are glad that you could meet some Europeans who were helping you.

We wonder if you will have the internet access in your new home. And how far is it from the previous school? What will your day look like now? Will you make enough money for your living? And how long is your workday and will you have time for your hobbies?

Please write us everything about you. We also wish you a happy Christmas season as well as all the best in the New Year to come.

Best regards,

Czech teachers from Jicin, MOA.
