

Dear friends

How are you .I hope you are fine and enjoying your life in your country as I also enjoying my life in H.H.F.L with my friends and our lovely mama Hanne. We also do many activities here in H.H.F.L we gain a lot of effort with our students who finished form four last year and they teach us how to calculate mathematics and how to use the answers we are proud of them.

I want to tell you that this year I have joined class eight in a new school which is (B J C) which is Blood of Jesus Christ and I love that school because it gives me a lot of knowledge and understanding in school .I am fourteen years old and my birthday party is on Sunday February 26th and I will enjoy the day.

Here in H.H.F.L we do a lot of activities like football, netball, basketball, netball with my friends but I have just one best friend called Mary Njeri I love her. We even share some secrets at school and at home we play together and we share what we have.

When I grow up I would like to be a teacher or a dentist to help other peoples in there life that is my option in future .My talent is swimming and playing football with my friends in H.H.F.L.

I have missed you very much but I have your pitcher I still remember you with that pitcher. I love you with all my heart and soul.

Yours sincerely,
Emmah Mbithe

Teacher's remarks: Emma has been a hardworking student in my computer class and she is promising to be an expert in just a few days. I shall be training them on how to type, print, and make colorful presentations among other wonderful computer application skills. Through your support, Emmah has a chance to be in school like any of her peers to work towards building a future for herself.
