

Dear Masarykova and Akademie:

How are you? Hope you are fine am also doing good here at the project. We just had Easter holiday and we had an amazing celebration with Mama Hanne, Linda and Lily.

Am in a technical institution by the name Kinyanjui Technical Institute am pursuing a career in welding and fabrication. It is a good course I do love and appreciate it. I am getting on well with this course which I will finish soon and become self dependant. I am also very grateful for your support. With that I don't have much to say but to wish you a happy April holiday

Lots of love from Grison Ngugi
