

Hi Emma.

We are pupils of 1.A at the business academy in Jicin. We have got many hobbies. We like dancing and swimming. We are looking forward to sunny days, because we are going to go outdoor to a swimming pool. In holidays we want to arrange a volleyball match. It will be fun, we think.

Our Christmas? We have Christmas 24th of December. We have a ceremonial dinner usually carp with potato salad. Then father Christmas comes. He brings presents for us. Presents are under the tree and then we unwrap them. In some families people go to churches.

We finished at our primary schools and we came to a high school - Masaryk business academy in Jicin. We are in the first class. When we started the new school year, we did not know each other. We were at an adaptation course in village Jinolice and we got to know each other. We stayed there one day and we played some games all day. After this course we met new teachers and we started learning new subjects - economics, ecology, economic geography, maths, history, english language, czech language, PE, russian language. Sometimes we have bad marks, but sometimes we have good ones. In three weeks we are going to a school trip back to Jinolice for two days. After that we are going to get the school report and going to start holidays, we are looking forward to them.

Holidays last for two months, during which we can have fun. We ride a bike and play volleyball, basketball, baseball, football. With friends we eat strawberries, bluberries, cherries, apples, raspberries and melon. When holidays finish, we look for new books for the next school year. And that's about all of us. We look forward to your next letter.

Sincerely class 1.A
